

ASBPA Update

BOARD APPROVED RULE CHANGES

The Board recently received legislative approval for rule changes, and they are now in effect. The substantive changes include:

- **CPA Exam** – moves from limiting candidates to one section per testing window to unlimited testing per window, as long as the score from the previous exam has been received for that particular section.
- **CPE Nano Learning** – we now allow up to 4 hours of nano learning CPE credit (nano learning is CPE taken in ten- minute increments).
- **CPE Content Requirement** – we have reduced the requirement that 50% of CPE (20 hours per year) be met through courses in Accounting & Auditing, Tax, or Ethics to 40% for those working in public accounting and to 20% for those who do not work in public accounting.
- **CPE Group Study Requirement** – we have reduced the group study requirement from 40% to 20% (16 hours to 8 hours per year). (this rule was relaxed to zero hours for 2020 due to Covid 19)
- **Quality Review** – we updated rules surrounding Quality review for impact of the Peer Review requirement that became effective January 1, 2019.
- **Prelicensure Criminal Background Petition** – created a process for individuals to petition the Board for a determination as to whether their criminal record would disqualify them from licensure or if they would be eligible to obtain a waiver from the Board.

All of the rule changes are available on our website <https://www.asbpa.arkansas.gov/laws-and-rules/proposed-rule-changes/>.

CPA EXAM YEAR-ROUND TESTING

New Model Replaces Quarterly Testing Windows

The National Association of State Boards of Accountancy (NASBA), American Institute of CPAs (AICPA) and Prometric recently launched year-round testing of the Uniform CPA Examination (Exam). The new continuous testing model provides greater candidate flexibility and convenience, with more than 75 additional testing dates available throughout the year. The new model replaces quarterly testing windows that allowed candidates to sit for the Exam during specified dates. According to Prometric, 3,465 test events have already been scheduled between September 11-30, 2020, a previous blackout period, signifying increased flexibility and frequency in candidate testing.

The 55 U.S. Boards of Accountancy have endorsed the move to a Continuous Testing model as a means to support Exam candidates on their journey to CPA licensure.

Under the continuous testing model, scores will be released on a rolling basis. Candidates wishing to learn more about continuous testing, as well as how the score release process will work, should visit the AICPA's [CPA Exam Score Release](#) page, as well as follow NASBA via social media for updates.

NASBA MAKES CRUCIAL DECISION ON CPA EVOLUTION

Unanimous Vote of Support for the Advancement of the CPA Evolution Initiative

The National Association of State Boards of Accountancy (NASBA) Board of Directors has announced its unanimous vote of support for the advancement of the CPA Evolution initiative to design and implement a new approach to CPA licensure. CPA Evolution is a joint initiative between NASBA and the American Institute of CPAs (AICPA). In recent years, NASBA and the AICPA have monitored trends impacting the skillsets required of newly licensed CPAs and believe the CPA Evolution initiative will aid in positioning the CPA license for the future as well as continue to protect the public interest.

“The CPA profession is too important to our society and to our economy to not be 100% prepared and ready to respond to changing demands,” shared NASBA Chair

Laurie Tish, CPA. “CPAs entering the profession must be prepared with the skills and knowledge necessary to serve in this trusted role. The new licensure model will be more attractive to the best and the brightest, which will enhance the CPA pipeline.”

The CPA Evolution initiative aims to ensure newly licensed CPAs have the required knowledge and skills best suited to serve clients, businesses and the public-at-large. As the profession and the world navigate a new normal, education required of CPA candidates, as well as the CPA Exam, itself, will adapt to address the emerging skills and competencies necessary in today’s marketplace. The new core plus discipline model will allow candidates to show enhanced competency in a chosen discipline within the profession.
