NON-RESIDENT PRE-LICENSE CHECK

Arkansas statutes provide for the registration of non-resident appraisers who are currently licensed or certified in another jurisdiction, provided the appraiser is coming from a State (Home State) that is "in compliance" with Title XI as determined by the Appraisal Subcommittee; the appraiser holds a valid credential from his or her Home State; the applicants background meets SBAAHI qualifications; and the Home State is deemed to have substantially equivalent licensing and certification requirements.

Thank you for your interest in becoming an appraiser in Arkansas. All new applicants must complete a background check.

As a non-resident, you'll need to have a packet with fingerprint cards and instructions mailed to you to start the process. Please email this completed form to sarah.johnson@arkansas.gov and she will mail you the packet.

After you have completed and mailed the fingerprint packet back to us, we will email you a link to the appropriate online application to continue the process.
